UPLAST PP-RC PIPE

Uplast PP-RC pipes are manufactured in compliance with Turkish and Germany Standards TS 9937, DIN 8077, DIN 8078. Our products are approved and certified by GOST-R(Russia), UKR Sepdo (Ukraine) and have the certificates of guarantee obtained from the Turkish Standards Institute (TSE) and we have ISO 9001:2008 Quality system certified.

WHY YOU CHOSE US?

Being one of the well-known named firms in the country in the plastic sector, UPLAST gives the at most importance to quality and;

- Uses the most appropriate raw material
- Has the most advanced high technology
- Produces pipes can be used not only to carry water but wide range of fluids
- Has qualified technical staff at your service to solve your problems
- Our name stands for quality

WHY UPLAST PP-RC SYSTEMS?

Uplast has got the following advantages:

- Lightweight
- Easy to carry
- Easy to install
- Not dangerous to human life, non toxic, non cancerogenous
- Low cost of transportation, loading and unloading
- Has much longer service life compared to other piping systems
- Has high resistance against corrosion
- Can easily be connected to any kind of pipe. Due to low cost plumbing, it has a wide range of applications
- Water is one of the most important compounds contributing to human life: UPLAST PP-RC Pipes carry this vital fluid to your households in an easy and healthy way at a low cost.
